Android App

Bible Study from AndBible

The only bible study
app you need.

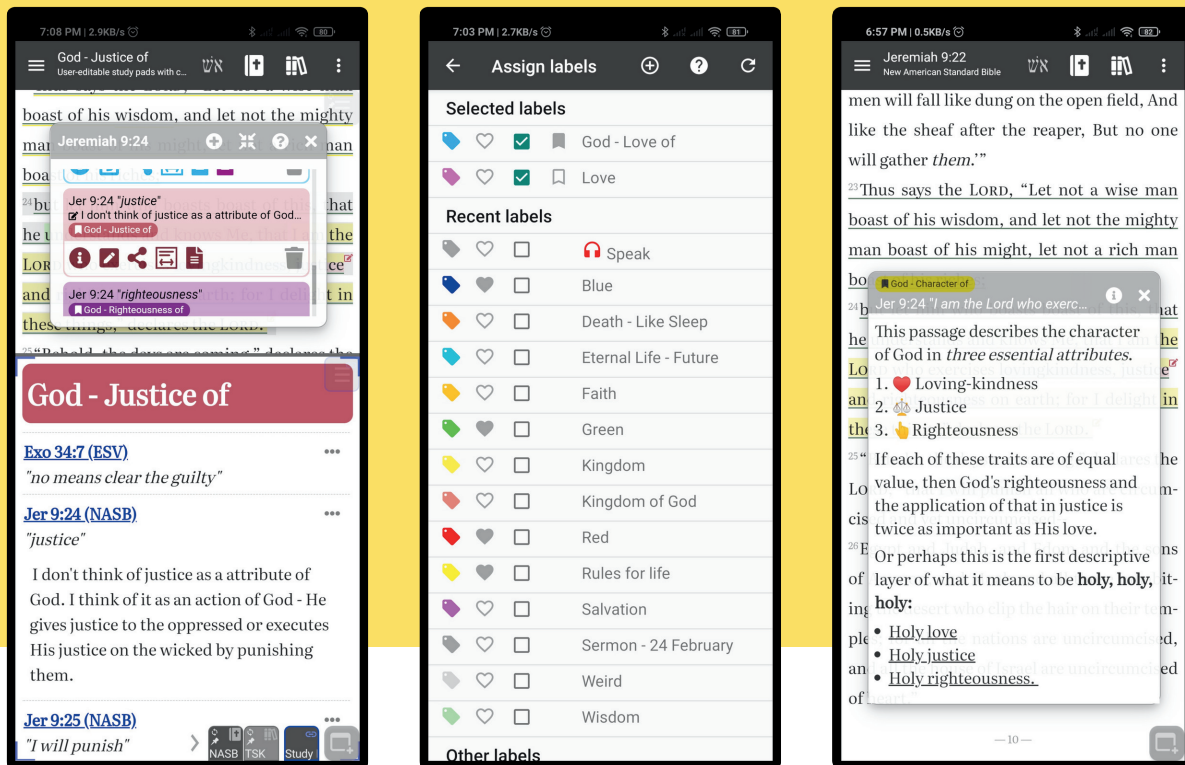

Bible Study is a **powerful**, yet **easy to use**, offline Bible study application for Android. The app does not aim to be simply a Bible reader, but focuses on being an advanced tool to do in-depth personal Bible study.

Key Features

- **Vast library of documents:** Bible translations, theological commentaries, dictionaries, maps, and Christian books, totalling over 1500 documents in over 700 languages, legally distributed by Crosswire and other SWORD repositories.
- **Split text views** which enable comparing translations and consulting commentaries on both phones and tablets.
- **Workspaces** allow multiple Bible study setups with their own settings.
- **Strong's integration** allows Greek and Hebrew word analysis.
- **Linked cross-references, footnotes, and documents:** jump to cross-references and footnotes by simply tapping a link; perform in-depth study of the Scriptures by using hyperlinked commentaries (Gill, Matthew Henry etc.), cross-reference collections (Treasure of Scripture Knowledge, TSKe) and other resources.
- **Advanced text to speech with speak bookmarks**, enabling a smooth Bible listening experience.
- **Advanced bookmarking & highlighting** features with personal study notes.
- **Study Pads for adding notes and Bible references** while listening to sermons.
- **Reading plans:** set goals for reading the Bible.
- Native support for **MyBible, MySword and EPUB files** enables you to extend your library even more.

AndBible Bible Study App - the only bible study app you need.
